The first Democratic convention ever held, in 1832, the system of nominating Presidential caudidates by Congressional caucus having received its death-blow in 1834, and President Jackson having been nominated in 1828 by State conventions in different States. This convention assem bled at Baltimore, renominated Jackson by ac ismation and Martin Van Buren for Vice-President. Governor Robert Lucas, of Ohlo, was the President of this convention. Jackson ran against Henry Clay, the " National Republican" candidate and carried the election. In 1835 the Dem persts held their second National Convention at Bultimore, and by acclamation nominated Martin Van Buren for President, and, after a sharp con test, selected Colonel R. M. Johnson, of Kentucky, for Vice-President over William C. Rives of Virginia. The latter's friends were very indiguant, and Virginia, in the election, voted for Van Buren, but rejected Johnson, giving her electoral vote to Governor Smith. This caused rotes. There being no choice, Johnson was

tie. Johnson had just half of the electoral elected by the Senate—the only instance in our history of a Vice-President being so chosen. In 1839, the Democrats met again at Baltimore which was the great Democratic beadquarters, ind renominated Martin Van Boren, but did

not nominate any candidate for Vice President, leaving each State to vote for whoever it pleased The result, however, was the triumph of the Whig ticket, Harrison and Tyler.

In 1844, the Democrats again met at Baitmont The principal candidates were Van Buren, Cass and R. M. Johnson, and Mr. Van Buren had a clear majority of the convention, but in order to beat him the two-thirds rule was adopted, and after nine ballots Mr. Van Buren's Irlands wern fured to vided and Januar R. Shas Wright, of New York, was made the nomines for Vice President, and the theet was elected over Clay and Freinghuysen by a very large mojority. It was in this way that the two-thirds rule arose in the Democratic conventions. In 1485, the Democratic conventions present, one for Van Burn, and the other for Daniel S. Dickmoo. Cass had a relear field and an excellent prospect for the mountation, but Martin Van Buren renuembered that Cass' friends had beaten bin in 1844, by the two-thirds rule, and he swore revenge. A Free Soil convention was held in Buffsio, and Martin Van Buren and Charles F. Adams were nominated for President and Vice President. Van Buren succeeded in dividing the vote of New York, so that the Whig candidate, Taylor, carried the State, and by this means the election.

In ISS the Democrats held their lifth successive convention in Baltimore. Cass, Buchanan, Douglas and Marcy were the leading candidate-for the Presidency. In 1876, the Democrate held their convention at Chemnad, and nominated Junes Bucharon on these venteenth holts, Parcer and Dougles being hos leading compitions. John C. DON'T CHANGE DATES - The Supreme Court of New York has decided upon a writ of error, that the promi of note is rendered void by any change of date after its delivery. In the case on trial it appeared on the face of the note that September " had been stricken out and "October 11 " substituted as the date after one of the particultud signed the note, and without his knowledge or censent. The Court showed that it was a rule of the common law as far back as the rein of Edward HL, that an erasure in deeds voids it; and the same rule has been held applired that the money drawer had been forced cubic to commercial paper—it having been established in both England and American jurispru dence, that a material attention in any commercial paper, without the consent of the party nighing the change, extinguishes his liability. The alteration of the date, whether to hasten or delay the payment, has been uniformly held to be ma torial. To prevent and punish such tempering, isions, at Pioneer, are closing out their the law does not permit the plaintiff to fall back the contract as it was originally. In pursuance of a stern but wise policy, it annuls the |natru ments at to the party sought to be wronged.

Political Paragraphs.

Some of the Democratic papers, speak very favorably of the fact that a woman has been appointed to attend the Democratic National Convention. The New York correspondent of the Buffslo Courier in noticing the "female delegate at large," cays: "It will be a new down, as the progressionists call it, to see a woman in Tam many. The Orientals, in full procession of pet icouts and button topped capes, would seem about as strange and out of pince in such a posi-tion, but if Miss Anthony likes it, or if she is villing to bear the battery of curlous eyes, to eay nothing of possible sucers, why everybody to their taste." An Illinois Democratic paper wants the New

York Covvention to promise armed resistance to Gen Grant's insuguration. The Democrats cry one to another in the words of Sir John Falstoff to Prince Hal: "I

would to God thou and I knew where a commodity of good names were to be bought." The vote on Sunset Cox's usualizati

Austrian mission was 12 for confirmation and 80 for rejection. Gen. Banks has a speech ready to support his report upon Alaska, and will deliver it as soon as

the tax bill goes over to the Senate. The minority of the Foreign Relations Committee will try a postponement till the next session, and have strong hopes of success. Speaker Colfax denies the report that he is

about to be married to a lady in Keokuk, Iowa. He further declares that there is no foundation or the story, says he means what he says, is not oking, etc., which will be recognized as the old tyle of decial in such cases.

The Cincinnati Enquirer (Pendleton's organ) prints a New York letter, which says:

Prints a New York letter, which says:

"You must not be deceived by the Chase lever. It is a fly to tickle the nose and divert attention from the main point; nothing more, I sakin you General Haucock is the real man the bondholders will aim to put on the tickle, with Mr. Hendricks for Vice-President. They are determined to slaughter Mr. Pendleton, bettering that when he falls his green beep han be to pay the debt falls with him. So they get their nit nominated, they will not cure a straw who is elected—for whether the Democrats or Republicans win, their bonds will be paid in gold."

The prospect is that there will be a lively time

The prospect is that there will be a lively time in the Democratic Convention on the greenback question. The World, speaking for a powerful interest, has given notice that the greenhacks for-bonds plank cannot go in; whereas the or-gans of l'endleton have given counter-notice that unless it does go in the platform, there will be no use in nominating a candidate. They will, if absolutely necessary, give up Pendleton, but the idea never. On the contrary, the World faction oppose both. We are waiting to see the factions

make up after the quarrel is over.

Thad. Stevens finds that he can't bring in his impeachment articles till the tax hill is out of th way. He told the Speake r, privately, that he had no expectation that they would be adopted, but se wanted to make a speech upon them. It is clieved that the House will not ruse a commit

ec upon them.

The Washington correspondent of the Chica go Tribina reports that a small movement has begun there in fivor of Reverdy Johnson for the Presidency. It is supposed to be thereflux wave of the Chase movement.

The Chicago Times says: "There are various indications that the Chase movement is a ruse Some of those who pretend to be for him are doubtless sincere, but the ring politicians are only making a cat's piw of him. Among the new trades started this year in Titusville, is the Tannery of Hubbard & Bro. They are not new hands at the business. They came here from the best tannery in West Pennsylvania, that of Greenville, Mercer county, an estabishment built by them and successfully instinct out of vieta and successions carried on for long period of years. They have located at the head of Washington street, and have converted and adapted the old steam foundry, situ ated near Church Run, into a tannery. The budeing is to be still further enlarged with a front of of forty-five feet an I a length of nearty feet. The nost modern improvements in machinery are in troduced, and a constant supply of water is secured for the vats, (wenty in number, and for all other purposes, from a spring on the hid, at an elevation of one hundred lect. The supply of Sark, oak and hembedt, for the timery is inexhaustible, affording the farmers berealouts n profrable market for an article which the have littlerto held of no account or value to them. Our butchers furnish all the hides need ed. The firm manufacture light stock, princ pally such as call, kip, upper leather, etc. They find good market here among the shoemakers and harness in dees for all the leather they can manufacture—as good a market as could be desired and the established reputation of the firm 6.7 twenty years, secures to them tage orders from all parts of the State and from other States. We may also state that the seed-bag kips and valve leather manufactured by this firm and sold a their store on Diamond street, are held in th

lughest estumation by oil operators. NEW PASSENGER AND FREIGHT TARIFFS About Monday to at new schedules of p ger and freight thrule on the Oil Creek and Alle theny River Britway will be issued. The freight tarif on oil in bulk under the new freight tariff from Petroleum Centre to Oil City, is to be twenty cents per barrel, and the charges to Corry and to Irrincton are to be the same from all points on the Creek and Oil City. From Tidloute the charges to Irvincton will be ten cents per barrel hese taritls, and at greater length, before they ake effect.

THE BREDE FAMILE'S CONCERT - The concert of the Beebe family on Saturday evening was well attended. Ella Beebe, as is well known, iossusses care musical talents, both as a pianist and singer.
